BHADERWAH TOWN

Bhaderwah, also known as "Chota Kashmir" is located in the foothills of the middle Himalayas that will leave you fascinated and charmed. The word Bhaderwah is derived from the Hindu goddess Bhadrakali and the place was formerly known as Bhaderkashi. Bhaderwah offers to the tourist a variety of beautiful landscapes like Jhai valley, Khani top, Padri, etc., and is dotted with temples like Kailash Kund, Gupt Ganga, etc. Central to the beauty of this saucer valley are the deodar and kail forests and river Neeru. Its distinctive moods change with the seasons. In winter the valley is carpeted with snow and in summer and springs, it is ablaze with colors of the flowers that blossom all over the place. A full majestic view of the sylvan Bhaderwah valley with snow-capped background makes visitors fall in love with Bhaderwah.

ABOUT BHADERWAH CAMPUS

Bhaderwah Campus, the largest offsite campus of the University of Jammu was started in 2006 by the then Chief Minister, Jenab Ghulam Nabi Azad, and was formally inaugurated by the then President of India, Her Excellency, Smt. Pratibha Devi Singh Patil. It is spread over an area of 100 acres and is situated at Sungli, 2.5 km. away from Bhaderwah town. Over the years, the institute has created a niche for its innovative UG, PG, Research, and short-term courses. The highly qualified members of the faculty of the campus have won many awards and recognitions at the national and international levels.

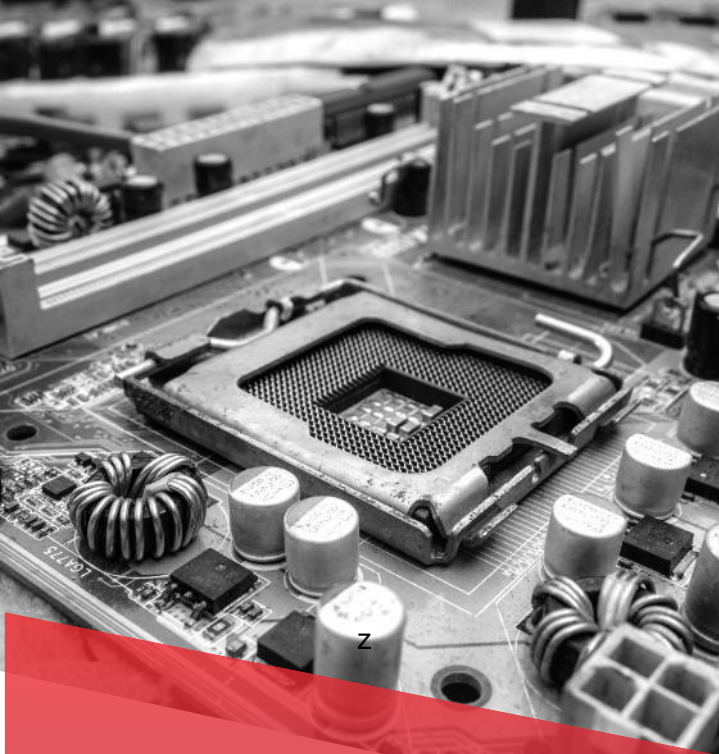

ABOUT DEPARTMENT OF CS & IT

The Department of Computer Science & IT was started at the Bhaderwah Campus, University of Jammu with the initiation of the MCA course in the year 2006. Since then the department has grown in infrastructure in terms of space, hardware, software communications, and manpower and is in process of growth as per rapidly changing technological developments. The department has multiple labs including a dedicated High-computing lab housing work-station computers and servers to enable its students and scholars to work and design algorithms and solutions to solve real-world problems. The alumni of this department have found their placement in various sectors in the global market. The department has undertaken research and is offering Ph.D. programs to students in the domains of Artificial Intelligence, Deep learning, Machine vision, Bio-informatics, Robotics, cloud computing, and other allied domains. The department also organizes conferences, workshops, FDPs, etc. on regular basis in collaboration with academic and industry leaders. Department has grown visibly on all fronts and stands firmly on the Global IT map. The MCA and research courses infrastructure like hardware, software, library, space, manpower, and course design stands among the best available anywhere in the country.

ABOUT IHUB DIVYASAMPARK @ IIT ROORKEE
